PROFESSIONAL SUMMARY

Computer Engineering graduate and software developer with professional experience building and improving web interfaces and practical project experience with React, JavaScript, APIs, and database-backed applications. Comfortable navigating existing code, implementing features, troubleshooting UI behavior, and maintaining responsive, reusable components. Interested in applying structured technical reasoning to software debugging, code review, and AI-assisted software evaluation. Frontend-focused background with working familiarity with backend and database concepts.

TECHNICAL SKILLS

Programming & Web: JavaScript (ES6+), HTML5, CSS3, React.js, Tailwind CSS, responsive design

React & UI: Components, Props, State, Hooks, Context API, React Router, reusable components, RTL/LTR interfaces, dark mode, Recharts

APIs & Data: REST API concepts, Supabase, PHP, MySQL, phpMyAdmin, database-backed application concepts

Development Tools: Git, GitHub, Vite, Vercel, Visual Studio Code, XAMPP

Relevant Practices: Debugging and troubleshooting, understanding existing codebases, feature implementation, UI consistency, maintainability, usability

PROFESSIONAL EXPERIENCE

Frontend Developer | Al-Majd Software Solutions | Mar 2025 – Jun 2026

- Designed and developed responsive web interfaces based on project requirements and existing designs.
- Implemented website updates, new sections, reusable UI components, and frontend feature improvements.
- Troubleshot layout and interaction issues across responsive pages and refined navigation and usability.
- Maintained visual consistency while enhancing existing websites and adapting interfaces to different screen sizes.
- Worked with React.js, JavaScript, HTML, CSS, Tailwind CSS, and common frontend development tools.

SELECTED PROJECTS

MADAR — Modular ERP Web Application: Arabic-first RTL business management interface built with React, Tailwind CSS, and Supabase; includes modular workflows and database-connected application concepts.

Clothing Store Dashboard: Management dashboard with statistics, product management, reports, and data visualizations.

Clothing Store: Responsive e-commerce frontend focused on product presentation and shopping experience.

My Dental Plan & Espresso Moment Maker: Interactive, responsive web experiences focused on clear information presentation, visual storytelling, and usable interfaces.

EDUCATION & LANGUAGES

B.Sc. in Computer Engineering | University of Diyala | 2025

Arabic: Native | **English:** Intermediate (reading, writing, and speaking)
